A Celestial Reception: Integrating Astronomy into an Evening of Vows

An elegant, turnkey stargazing experience woven seamlessly into your wedding reception, crafted in the refined BSV style.

Setting & Intent

An evening designed to feel effortless and luminous. We arrive quietly, stage a discreet, camera-ready observatory in a wind-sheltered corner of your garden, terrace, or beachfront, and guide your guests through the night sky in curated moments that complement, not compete with, your celebration. The result is an heirloom memory: a reception that ends with wonder.

What We Bring & Guest Experience

What We Bring

Instruments

Observatory-grade optics for day & night; self-contained power available.

Footprint

Approximately one dining table; neutral finishes, cable covers, and blackout-friendly lighting.

Team

Lead astronomer-host + technician (scales to guest count).

Aesthetic Fit

Minimalist staging that blends with your florals and palette.

Guest Experience Touchpoints

Invitation Cards

In-suite or place cards: "An Evening with the Cosmos."

Pairings (Optional)

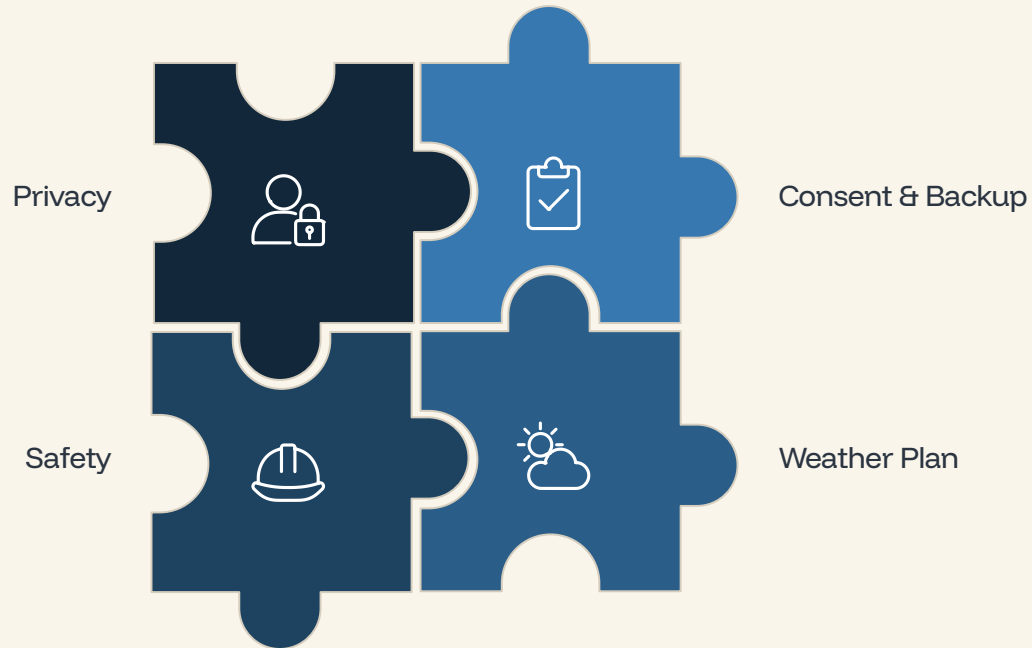

Champagne "first look" at the Moon; petite dessert intermission at the various nebulae; low-volume soundscape.

Keepsakes

Authentic lunar/Martian meteorite favors (curated), star-map prints dated to your night, optional private astrophotography.

Privacy, Safety & Contingencies

Privacy

NDA-friendly; no posting without written consent.

Safety

Observatory-standard solar filtration, ADA-aware layout, tidy cable routing; fully insured.

Weather Plan

Primary sky window reserved; backup micro-window held. Pivot to solar/daylight activation or an indoor, cinematic "Tour of the Night Sky" if conditions require.

Roles & Lift

Your Planner / Venue:

Confirm location, schedule, guest flow, and any F&B pairings.

BSV:

Sky analysis, staging, hosting, guest pacing, tear-down, contingency management, start to finish.
